## TECHNICAL SHEET

### Acoustic panels " BLACK ACRYLIC "

- Construction : Rigid lining made of resistant glass fiber, the main surface and the long edges are coated with a black acrylic polymer. Available in 25 mm (1 inch) or 51 mm (2 inches) thick, with a measurement of 1220 mm x 2440 mm (48in x 96in). The edges are square.

- Covering : Because it is designed to be concealed and holding a lower density, this type of panel is not recommended to receive a fabric covering.

- Installation : The panels will be installed using a construction adhesive or with the appropriate mechanical fasteners.

- The panels are warranty for 1 year.

FLAMMABILITY:  
CAN/ULC-S102.....Passed

\*\* Non standard thickness up to 102 mm (4in) thick is available.
